

Egyptian Corn.

Those who tried the cultivation of Egyptian corn last season were more than satisfied with the result.

And Flowers.

Nothing will pay the farmer to raise better than the sun flower, as the seed is valuable for poultry.

Planting Trees.

In the important operation of preparation of the trees there are more mistakes made than any other.

Large scraps of black Spanish bee are now worn on the bonnet, with the front edge falling over the brim.

Caution: Caution!! Caution!!!
